GOVERNMENT COLLEGE OF ENGINEERING TIRUNELVELI

OUR VISION

Our vision is to make this institution a center of learning, research eminence and excellence.

OUR MISSION

- Provide the best possible educational facilities to prepare the students for successful career in a global society.
- Enhance professional competency and analytical thinking to cater the needs of the industry and research organization.
- Develop socially responsible technocrats with high ethical and professional integrity.

PRINCIPAL ADDRESS

Established in 1981 to address the educational needs of southern Tamil Nadu, Government College of Engineering, Tirunelveli, has evolved significantly since its inception. Originally offering three undergraduate branches, the institution has expanded to encompass five branches, notably doubling the intake for Mechanical and Electronics and Communication Engineering (ECE) programs. With a focus on modernizing its facilities, the college now boasts contemporary infrastructure and advanced amenities. Recognized as a research center affiliated with Anna University, Chennai, the institution provides an enriching environment for cutting-edge research.

The experienced faculty, each Head of Department (HOD) possessing over three decades of expertise, contributes to the institution's academic excellence. As we transition into 2024, Government College of Engineering, Tirunelveli continues its commitment to fostering academic achievement, evident in the consistently impressive CGPA scores and university rankings achieved by its students.

Our students at Government College of Engineering, Tirunelveli, enjoy a privileged educational environment, excelling not only academically but also in communication skills, personality development, and sports proficiency. Their strong ethical foundation makes them valuable assets, well-suited to contribute meaningfully to any organization.

Dr. P. Latha, M.E., Ph.D.,
Principal
Government College of
Engineering, Tirunelveli-07

PLACEMENT OFFICERS ADDRESS

I proudly state that Government College of Engineering - Tirunelveli, a venerable institution of forty-two years, is dedicated to fostering ethically robust technocrats adept at navigating challenging technical and intellectual landscapes. This sentiment is shared by the placement officer at GCE.

The accomplished alumni of this esteemed institution hold influential positions in industries and technical organizations both in India and overseas. Students exhibit exceptional academic prowess, actively engaging in noteworthy technical co-curricular activities. Enthusiastically participating in in-plant trainings and technical exhibitions, they seek practical exposure.

The institution prioritizes students' development through soft skill programs and training guidance initiatives. Renowned multinational corporations, both in the public and private sectors, consistently recruit our talented students.

This publication aims to showcase the distinctive attributes of our college, and I extend my best wishes to each student for a promising and vibrant future.

Dr.E.SIVASANKARI M.E.,Ph.D.,
Placement Officer
Government College of Engineering,
Tirunelveli-07

PROF. S.SOMESH SUBRAMANIAN M.E.,
Assistant Placement Officer
Government College of Engineering,
Tirunelveli-07

ABOUT THE INSTITUTE

This institute provides a diverse range of undergraduate programs, including Civil, Mechanical, Electrical and Electronics, Electronics and Communication, and Computer Science Engineering. Additionally, we offer five postgraduate programs in Structural Engineering,

Engineering Design, Power Electronics & Drives, Communication Systems, and Computer Science and Engineering.

Our curriculum adheres to high standards and is meticulously structured by Anna University, Chennai, to align with contemporary industrial requirements, ensuring our students are well-prepared for the modern professional landscape.

OUR COLLEGE

Government College of Engineering, a distinguished constituent college of Anna University, stands out as a premier institution in Tamil Nadu, quenching the intellectual thirst of the ever-learning and energetic youth of our country. With a legacy spanning 43 years since its inception in 1981, the college has consistently strived to produce not only unassailable engineers but also tech-savvy entrepreneurs endowed with exceptional acuity, attitude, and ardor. Encompassing a sprawling 54-acre campus, the college is equipped with excellent infrastructure and a highly trained faculty dedicated to cultivating dynamic qualities in our students. Going beyond its commitments, the institute ensures that our students are academically acclimated, professionally promising, and invariably innovative, a testament to the vast experience of our esteemed faculty members. At Government College of Engineering, we believe in creating a vibrant ecosystem where curiosity is nurtured, challenges are embraced, and aspirations are turned into accomplishments. Our dedication to producing not only skilled professionals but also visionary leaders is reflected in our comprehensive curriculum, cutting-edge research initiatives, and a robust support system for student development.

NON-ENGINEERING DEPARTMENT

The non-engineering departments at GCE play a vital role in every student's life. Their unparalleled efforts in bridging the gap between school education and professional college life hold a distinguished place in our hall of fame. The exceptional facilities and attentive care provided to students are noteworthy, reflecting the distinctive character of the college.

Department of English

The Department of English holds a crucial role in fostering communication skills throughout the four-year course of study for students. Operating under the department, a dedicated Communication Lab, equipped with high-end computer systems, is accessible to students throughout their college journey.

Department of Mathematics

The Department of Mathematics, led by talented and experienced faculty, plays a pivotal role in guiding students to grasp fundamental concepts with utmost care. Renowned for its dedication, the department focuses on equipping students with the skills to proficiently handle calculations, iterations, and wave equations.

Department of Chemistry

The Department of Chemistry provides instruction to undergraduate students in the first and second semesters, encompassing both theory and practical sessions. The department's laboratory is well-equipped with sophisticated instruments, including UV-Visible Spectrophotometer, Flame Photometer, Paper Chromatograph, Ion Analyser, and Melting Point Apparatus, enhancing the hands-on learning experience for students.

Department of Physics

The Physics department's laboratory facility stands on par with those in premier institutes, offering state-of-the-art equipment. In addition to fundamental courses such as Quantum Mechanics, Classical Mechanics, Electrodynamics, Solid-State Physics, the department also conducts doctoral research, contributing to advanced scientific exploration.

CIVIL ENGINEERING

The department's enduring legacy is reflected not only in its rich history but also in its commitment to cultivating well-rounded engineers. Beyond technical expertise, emphasis on Engineering Ethics and Human values equips our students with a holistic understanding of their roles in society. Their prowess in Architectural Planning, Pavement design, and Construction and Infrastructure management positions them as competitive contributors in the dynamic field, showcasing their capabilities alongside seasoned professionals. The department's dedication to excellence continues to shape the future leaders of the engineering landscape.

Laboratory

- Strength of Materials Laboratory
- Concrete Laboratory
- Highway Laboratory
- Hydraulic Laboratory
- Geo-technical Laboratory
- Survey Laboratory
- Environmental Engineering Laboratory
- CAD Laboratory

Curriculum

- Engineering Mechanics
- Construction Materials
- Fluid Mechanics
- Engineering Geology
- Applied Hydraulic Engineering
- Soil Mechanics
- Highway Engineering
- Foundation Engineering
- Structural Design and Drawing
- Hydrology and Water
- Resources Engineering

Milestones

- The Department of Civil Engineering actively engages in diverse testing and consultancy projects, collaborating with various organizations, including both central and state government initiatives, as well as private sectors.
- A group of 6 students from our department proudly represented our college in the SMART INDIA HACKATHON 2022 held in Jaipur, organized by the Government of India.
- Seven students from the Civil Engineering department secured ranks from Anna University in the 2021 exams, showcasing academic excellence.

Formation

- **CIVILORIA** - National-level symposium, is conducted annually, providing a platform for academic discourse and knowledge exchange in the field of Civil Engineering.
- Regular coaching classes for GATE and CAT are conducted, aiding students in their preparation for these competitive examinations.
- Regular sessions on personality development and placement training contribute to the comprehensive growth of our students.

MECHANICAL ENGINEERING

As pioneers in Mechanical Engineering education, we blend tradition with innovation, shaping future engineers. With a commitment to excellence, our department instills values of integrity and academic brilliance, providing students with an environment that encourages curiosity, critical thinking, and hands-on learning.

Through a comprehensive curriculum and cutting-edge research, we empower our students to thrive in a dynamic world, equipping them with the skills to tackle complex engineering challenges. Join us on this transformative journey, where knowledge is not just gained but forged, and where each student becomes a catalyst for progress and innovation.

Cutting-Edge Laboratories:

Explore our state-of-the-art laboratories designed to enhance practical skills and hands-on learning:

- CAD/CAM Laboratory
- Mechatronics Laboratory
- Microprocessor Laboratory
- General Machines Laboratory
- Special Machines Laboratory
- ICEngines Laboratory
- Dynamics Laboratory
- Metallurgy Laboratory
- Metrology Laboratory
- Thermal Engineering Laboratory
- Foundry and Smithy Shop
- Boiler House

Comprehensive Curriculum:

Our curriculum is carefully curated to equip students with the knowledge and skills required for success in the field of mechanical engineering. Key subjects include:

- Applied Thermodynamics & Thermal Engineering
- Fluid Mechanics
- Gas Dynamics and Space Propulsion
- Applied Hydraulics and Pneumatics
- Power Plant Engineering
- Robotics
- Metrology and Inspection
- Professional Ethics and Principles of Management
- Design of Machine Elements and Transmission Elements
- CAD/CAM
- Mechatronics
- Finite Elements Analysis

Our Dynamic Teachings and Student Projects:

TESLA COIL

ROBOTICS AUTOMZTION

Notable Achievements:

- Celebrating milestones such as top GATE scores and participation in prestigious internships and competitions like the Smart India Grand Finale Hackathon.
- Providing invaluable in-plant training opportunities, enriching students' practical knowledge and industry exposure.

Dynamic Initiatives:

- **METIQUEST:** Our annual national-level technical symposium, METIQUEST, serves as a platform for innovation and knowledge exchange.
- **Industrial Workshops and Technical Events:** Regularly organized to nurture talent and prepare students for the competitive world.
- **Career Development Initiatives:** From coaching classes for competitive exams to career guidance programs and guest lectures, ensuring students are well-prepared for their professional journey.
- **TECH EXPO:** Witness the excitement of our inter-college project presentation battle, TECH EXPO, where creativity and ingenuity shine in mechanical engineering.

ELECTRICAL & ELECTRONICS ENGINEERING

Welcome to the Electrical and Electronics Engineering Department at Government College of Engineering Tirunelveli, where brilliance meets innovation and excellence is cultivated. At our department, we go beyond conventional teaching methods to nurture well-rounded individuals equipped with not only technical expertise but also a strong foundation in Engineering Ethics and human values, developing individuals who contribute meaningfully to society, embodying the principles of integrity, empathy, and social responsibility.

Laboratories of Exploration:

Step into our world of cutting-edge laboratories, where theory meets practice and innovation knows no bounds:

- Electronics Devices and Circuits Laboratory
- AC and DC Machines Laboratory
- Power Electronics and Drives Laboratory
- Microprocessor and Microcontroller Laboratory
- Digital and Linear Integrated Circuits Laboratory
- Control and Instrumentation Laboratory

Curriculum for Success:

Embark on a journey of discovery with our comprehensive curriculum designed to meet the evolving needs of industries and research:

- Electrical Machines
- Special Electrical Machines
- Measurements and Instrumentations
- Electrical Circuits
- Electromagnetic Field Theory
- Transmission and Distribution
- Electronic Devices and ICs
- Control Systems
- Power Electronics
- Microprocessor and Microcontroller
- Smart Grid
- High Voltage Engineering
- Embedded Systems
- Discrete Time System and Signal Processing
- Sensors and Transducers
- Intellectual Property Rights

Notable Milestones:

Celebrate the achievements of our students as they carve their path to success:

- Belbina Ann.B from the 2021 batch secured the 22nd Rank in Anna University exam, showcasing our commitment to academic excellence.
- Three students from the 2022 batch cracked the GATE exams in their first attempt, demonstrating their dedication and our quality education.
- Our students undergo enriching experiences through in-plant training at esteemed institutions like Tuticorin Thermal Power Station (TTPS), Southern Petrochemical Industries Corporation (SPIC), and Wind Turbine Research Station (WTRS).
- Internships at renowned organizations such as ZOHO, BSNL, and Icanio Technologies provide invaluable industry exposure and practical learning opportunities.
- Industry visits to Koodankulam Nuclear Power Plant, Power Grid, and TRACO Cable Company offer insights into real-world applications and practices.
- Language classes conducted by the Directorate of Technical Education broaden students' horizons and prepare them for global opportunities.
- LEAP (Learning Engineering through Activity Program) classes foster creativity and collaboration, enabling students to undertake innovative projects across disciplines.

ELECTRONICS & COMMUNICATION ENGINEERING

Founded in 1981, the Electronics and Communication Engineering department at Government College of Engineering Tirunelveli is a symbol of triumph, renowned for its unmatched placement records and the highest pass percentage in South Tamil Nadu. Guided by a distinguished faculty and equipped with state-of-the-art infrastructure, we prioritize experiential learning and research, instilling in students not only academic proficiency but also the skills to compete globally. Embark on a transformative academic journey where tradition meets innovation, excellence prevails, and each student is empowered to become a trailblazer in ECE

Forging Pathways of Excellence:

Embrace a journey of discovery as you explore our state-of-the-art laboratories, each designed to unleash your potential and fuel your passion for innovation:

- Electronic Devices and Circuits Laboratory
- Analog & Digital Circuits Laboratory
- Linear Integrated Circuits Laboratory
- DSP Laboratory
- Communication System Laboratory
- Computer Networking Laboratory
- Microprocessor & Microcontroller Laboratory
- Microwave and Optical Communication Laboratory
- VLSI Design Laboratory

Curriculum for Success:

Dive into our meticulously crafted curriculum, meticulously designed to equip you with the skills and knowledge needed to thrive in the ever-evolving field of electronics and communication engineering:

- Electronic Devices & Circuits
- Integrated Circuits & VLSI Design
- Satellite & Mobile Communication
- Digital Signal Processing
- Microprocessor & Microcontroller
- Computer Architecture
- Analog & Digital Communication
- Wave Propagation and Antenna Theory
- Embedded Systems
- Microwave & Fibre Optics
- C, C++, Data Structure

Our Dynamic Teachings and Student Training

Celebrating Milestones:

Join the ranks of our accomplished students as you embark on a journey of success and achievement:

- Over 50 students have interned at prestigious institutions such as BSNL Tirunelveli and NSIC Chennai, gaining invaluable industry exposure.
- Witness the spirit of innovation firsthand at our Inter-College Paper Presentation and Technical Events Competitions held on Inauguration Day.
- Celebrate the accolades of our students as they clinch top prizes in paper presentations and symposiums hosted by other colleges.
- Excel on a global scale with many students achieving certification and even top rankings in NPTEL Examinations.
- Immerse yourself in a world of competition and camaraderie with numerous technical events organized by our association.

COMPUTER SCIENCE & ENGINEERING

The department continually adapts to the ever-evolving landscape of technology, integrating cutting-edge advancements into its curriculum. Through a holistic approach, it not only imparts technical skills but also fosters critical thinking and problem-solving abilities among students. Engaging in collaborative research projects and industry partnerships, the department aims to bridge academia and practical application, ensuring graduates are well-prepared for the dynamic challenges of the digital era.

Laboratory

- Compiler design and DBMS Laboratory
- Multimedia and Graphics laboratory
- Case Tools laboratory
- Networking, Web Technology, Internet laboratory
- OS, System software laboratory
- Data structures laboratory
- Visual Programming laboratory
- Microprocessor and Microcontroller laboratory
- Data Science laboratory

Curriculum

- Object Oriented Programming
- Database Management Systems
- Computer Architecture
- Computer Graphics
- Machine Learning & Artificial Intelligence
- Data Science
- Operating System
- Object Oriented Programming
- Database Management Systems
- Computer Architecture
- Computer Graphics
- Machine Learning and Artificial Intelligence
- Data Science
- Operating System

Milestone

- The department proudly acknowledges the achievement of our students as winners in the **SMART INDIA HACKATHON 2022**, organized by AICTE and the Ministry of Innovation.
- Engaged in internships at BSNL, ZOHO, and Icanio Technologies.
- Secured the 69th All India Rank in the Coding Ninjas Competition organized by AICTE.
- In the 2025 batch, a student achieved the second prize in 'Theerkathan Startup Thirivizha' an InnovateTN program for future entrepreneurs, highlighting our dedication to nurturing innovative thinking and entrepreneurial excellence.

- Four third year students from the 2025 batch cracked the GATE exams in their first attempt, demonstrating their dedication and our quality education.
- In the 2024 GATE exam, a student secured the 447th rank nationwide.

Formation

- **Hashtag** - a National Level Technical Symposium, has been consistently organized annually since the inception of the Department.
- Intermittent coaching classes are conducted for soft skills, competitive exams, technical support, and personality development to enrich the overall development of students.
- Providing 100Mbps surfing access and Video Conferencing Facility, enhancing connectivity for the benefit of students and faculty members.

PLACEMENT RECORDS

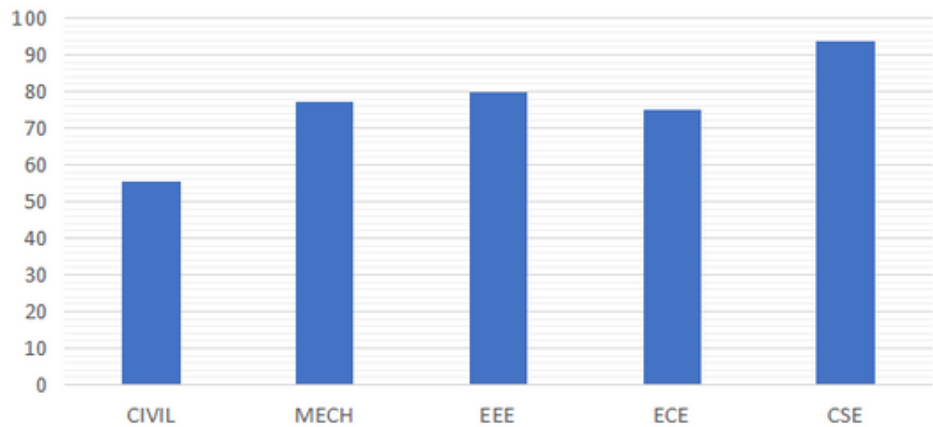

2019-2020 Placement Statistics

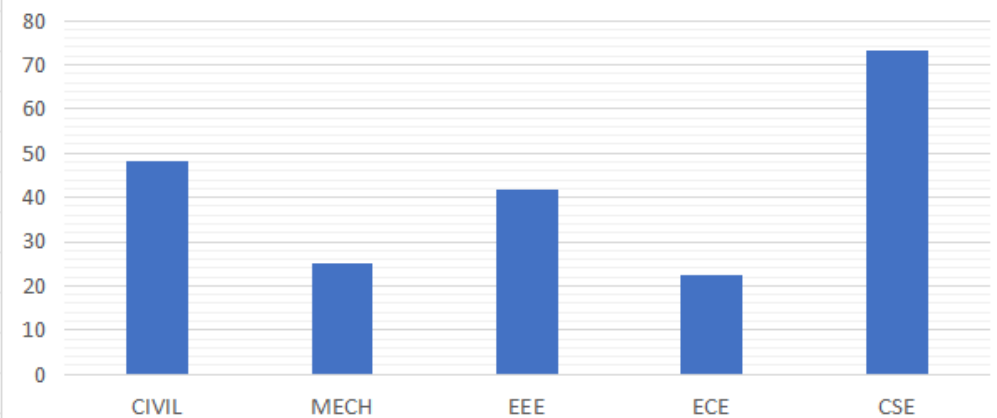

2020-2021 Placement Statistics

2021-2022 Placement Statistics

2022-2023 Placement Statistics

Placement Cell

The Placement Cell at GCE is integral to securing employment opportunities for both Undergraduates and Postgraduates. This is achieved through continuous communication with renowned firms and industrial establishments. Situated within the Computer Science and Engineering M.E. Block, the Placement Cell serves as a dedicated hub for fostering connections between students and prospective employers. Its strategic location underscores its commitment to facilitating successful career transitions for graduates.

COLLEGE INFRASTRUCTURE

Library

The college library, housed in a dedicated block, holds books relevant to the institution's courses, totaling 18,000 titles and 38,190 volumes. Annual additions ensure a growing collection. Subscriptions include 37 Indian and 3 foreign journals. Operating on an open access system, the library employs the universal decimal classification.

Computer Centre

The Central Computer Centre provides 24/7 services and ensures a continuous power supply to students, equipped with state-of-the-art infrastructure to facilitate research and studies. Over 60 computers are available to students for their research and educational endeavors, offering a technologically advanced environment on campus.

Internet

All academic departments have internet connectivity with a bandwidth of 100Mbps to enhance student access to online resources. Hostels are equipped with WiFi, enabling residents to connect to the internet and enrich their academic knowledge. A network interconnects all departments, fostering seamless communication and collaboration.

Banking

The college provides a 24-hour ATM facility, and within the campus, there is also an operational branch of Canara Bank.

Conference Hall

The conference hall serves as the venue for conducting meetings and conferences, and, in certain instances, it may also be utilized as an interview hall.

Transportation

The college offers a bus service for students and staff at prescribed rates, with regular routes to Shanthi Nagar via Palayamkottai bus stand, Market, and High Ground. This benefits day scholars and staff members. The bus is also utilized for student visits to industries in and around Tirunelveli.

Sports & Games

The campus provides facilities for a range of sports, including Cricket, Hockey, Football, Volleyball, and more. An indoor stadium with international standards is available for badminton, featuring a turf floor. Additionally, a tennis stadium with synthetic flooring is also accessible.

Power Supply

The college benefits from uninterrupted power supply, facilitated by an inbuilt power house on the campus. The power house ensures a consistent source of electricity for the college infrastructure.

Hostels

The college provides accommodation in eight hostels, with Kaveri, Porunai, Vaigai, Manimutharu, and Sittraru for men, and Amaravathi, Bhavani, and Narmadha for women. These hostels house over 700 boys and 300 girls, offering amenities such as reliable water supply, uninterrupted power, and facilities like television, reading halls, and newspapers.

InnovateTN

Directorate of Technical Education, Higher Education Department, TamilNadu has selected this institution for establishing FAB lab/Makers space named as INNOVATE TN LAB among the Government Engineering colleges by the M/S Forge, Coimbatore and operate for a period of 5 years from the Academic Year 2023-24 which was funded by TANSIM.

The various services offered by the M/S Forge for the Host institution are,

- Capacity Building Program for Faculty members – 15/year (Innovation Mentor)
- Innovation Competency Development (Workshops /Bootcamp/ Hackathons) - Six Day each for All the students of all branches
 - 1.Engineering Sprint (IV SEM)
 - 2.Innovation sprint (VSEM)
 - 3.Design Sprint (VI SEM)
 - 4.Ideation Sprint (VII SEM)
- Innovation fellowship (Protosem) for selected 45 students throughout VIII SEM
- Industrial Skill Workshop

CLUBS & ASSOCIATION

Rotaract Club

Established in 2008 by the Rotary Club of Tirunelveli, the college's Rotaract Club organizes awareness programs, blood donation camps, and actively engages in placement training. Collaborating with its parent club, it conducts mock interviews, fostering comprehensive development among college students.

Red Ribbon Club

Established in 2007, this club organizes an annual blood donation camp where college students actively contribute to assisting the needy at the Government Hospital in Tirunelveli.

National Social service

NSS began with the goal of raising awareness among students. The college conducts periodic activities like blood donation camps, first aid awareness programs, and guest lectures on health and cleanliness. Furthermore, an annual NSS camp is organized in rural areas to promote awareness among the local community.

Yoga Club

Founded in 2008, the Yoga Club aims to nurture inherent talents through meditation courses, Asanas, and personality development programs. It annually observes International Yoga Day with dedicated initiatives to promote well-being.

ISTF Staff Chapter

The ISTE Staff Chapter actively elevates technical education quality with year-round engagement. Hosting lectures, seminars, and programs featuring distinguished speakers, it enhances members' professional development.

Students Association

The college features a student association, comprising elected representatives and a staff advisor from each class nominated by the principal. This collective forms the Students' Association Council of Representatives.

Fine Arts Association

The Fine Arts Association strives to showcase the artistic and histrionic talents of students while offering opportunities to enhance creativity and teamwork skills.

Science Association

The Science Association supports first-year B.E. students, offering insights into scientific facts and applications through special lectures by eminent scholars.

ISTE Student Chapter

Established in 1994, the ISTE student chapter organizes lectures, seminars, computer courses, and quiz events with guest speakers. Additionally, it coordinates Personality Development Programs, Entrepreneurship Programs, and GATE coaching classes.

Literary & Debating Society

Formed under the Department of English, a Literary and Debating Society aims to enhance students' communication, presentation, and interpersonal skills. The society also organizes mock interviews and group discussions as part of its objectives.

Anti-Corruption Club

The inception of this club was driven by the goal of fostering awareness against corruption. Its ultimate aim is to activate and motivate students to stand against corruption, contributing to the establishment of a society free from corruption.

Alumni Association

Established in May 2017, the Alumni Association is dedicated to conducting periodic workshops and seminars, fostering awareness among students about recent industry trends, recruitment opportunities, and prospects for higher studies. The association sponsors various training programs regularly and maintains a robust web portal network, providing access to boundless horizons.

Tamil Mandram

Our College Tamil Mandram is a vibrant platform, organizing annual special meetings, elocution, and essay competitions to showcase and nurture students' linguistic talents. Beyond creative expression, it acts as a catalyst for the growth and preservation of Tamil. By fostering an appreciation for linguistic richness,
