(Q.no. 4) OR

'An Election'

There was a queue of voters outside of the booth. A long line stood there. So many men and women had come for voting. In the polling booth, there was a couple of polling officers and a presiding officer had sitted in chairs. Otherwise some polling agents had sitted. A voter came and a polling officer checked his name, identity and voter proof. After this other polling officer marked the indelible-ink on his left hand's index finger. The presiding officer said to him to go in polling box and the officer issued a ballot from control-unit. The voter will pressed pressed the a button which on electronic voting machine and frequently a 'bip' or 'beep' sound created after this a remark flash on screen of machine that the vote gone to which candidate. This process continuously run from 8 a.m. to 1 p.m. I learned so much and experienced the voting.

— M.G.

B
S
The Science is 'angel' in peace but become 'devil' in war.

So that It depends on us (to how we use the science for happiness of mankind. Science is a good servant but bad master. If is true.. If a destructive mind becomes the friend or master of science so he destroys so but if a good minded man handed the science so the world becomes heaven.
